

Martina Bortolami was born in 1992 in Rome, Italy. She obtained her Master Degree in Pharmacy with 110/110 cum laude at Sapienza University of Rome, Italy, in 2016. In the same University, at the Department of “Chemistry and Technology of Drug”, she obtained her PhD in Pharmaceutical Sciences in 2019. Afterwards, she worked as Postdoctoral Researcher on organic and electro-organic synthesis of molecules of industrial and pharmaceutical interest at the Department of “Basic and Applied Sciences for Engineering” of Sapienza University of Rome. Her research activity is focused on the design, synthesis and characterization of new molecules in the field of pharmaceutical chemistry and on the organic electrosynthesis. She is currently co-author of 33 publications in peer-reviewed journals.
