

Dr Ivo Pietro Degiovanni is a Senior Researcher at INRIM (Quantum Metrology and Nanotechnology Division). He developed his scientific competences in the fields of Quantum optics, Quantum metrology, Quantum Communication and Information as proved by several papers co-authored on these topics (more than 100, H-index 31).

He is also the Chairman of the EURAMET European Metrology Network for Quantum Technologies (EMN-Q), he serves as a member of the “Consiglio di Direzione Scientifica” of INRIM, and as a member of the Strategic Research Agenda Working Group (SRA-WG) of the EU Quantum Flagship (team: “Sensing and Metrology”).

He is Associate Editor of the European Physical Journal D (EPJ D), and of the European Physical Journal Quantum Technology (EPJ QT).
