

Dr Jason Duskey was born in Alaska in 1985. He attended Mount Mercy College earning a B.S in Chemistry and Biology. At the University of Iowa, he received his Ph.D. in 2013 on peptide gene delivery systems. After a short post-doctoral experience in Basel, he transferred to the University of Modena and Reggio Emilia in 2016 to study targeted nanomedicine delivery systems. He has published more than 40 articles (H-index 16), been invited as a speaker to more than 15 international conferences, and has received numerous awards and independent research grants, playing a leading role in national and international grants. He successfully obtained Abilitazione Scientifica Nazionale in Italy in 2021, and an official researcher position (RTD-B) in 2022.
