

Professor Duncan Graham is based at the University of Strathclyde, Glasgow and is currently Associate Principal and Executive Dean of the Faculty of Science. He has a research group of around 20, and over 250 publications to date. Duncan Graham is also a co-founder of the Centre for Molecular Nanometrology and was a co-founder and director of Renishaw Diagnostics Ltd (formerly D3 Technologies) that was sold to Bruker in 2016.

He is the current chair of the scientific advisory board for LGC Ltd, serves as Chair of the Publishing Board for the Royal Society of Chemistry and is a trustee of the Royal Society of Chemistry. He is also a trustee for the Association of British Spectroscopists Trust fund. He served as president of the Analytical Division of the RSC (2017-2020) and as a trustee of the Analytical Chemistry Trust Fund (2017-2020).

He is on the advisory editorial board for Analyst, Chemical Science and Chemical Society Reviews, the editorial advisory board for the Journal of Raman Spectroscopy, the editorial board for Biomedical Spectroscopy and Imaging, the advisory board for Analytical Methods and has served on various peer review panels. Previously he was the vice chair of the Multidisciplinary Expert Review Panel for CRUK and a member of their Science Committee (2015-2021) and served on the EPSRCs Strategic Advisory Team for Physical Sciences (2016-2021).
