

Tsuyoshi Minami obtained his Ph.D. from Tokyo Metropolitan University in 2011. During his Ph.D. research, he worked at University of Bath as a collaborative researcher. Between 2011 and 2013, he worked as a Postdoctoral Research Associate at Bowling Green State University and was appointed as a Research Assistant Professor in 2013. In 2014, he proceeded to Yamagata University as an Assistant Professor. Thereafter, he was appointed as a Lecturer at the University of Tokyo in 2016, and Associate Professor since 2019. His research interests are supramolecular analytical chemistry, self-assembled materials, nanoparticles, and organic transistors for sensing applications.
