

SAPIENZA
UNIVERSITÀ DI ROMA

Nano Rome, 19-23 September
2022 **Innovation**
Conference & Exhibition

SOCIETÀ ITALIANA PER LE VESICOLE EXTRACELLULARI

PhD-derived EVs: implementing communication

Extracellular Vesicles

The new era of the intercellular communication

Organized by **Prof. Luciana Dini** (Sapienza University) and **Prof Annalisa Radeghieri** (Italian Society of Extracellular Vesicles , EVIta)

This session has the main purpose of facilitating the exchange of ideas and establishing collaborations between PhD students whose thesis work is correlated with the study of extracellular vesicles.

Theme I

Isolation and Characterization of EVs

Theme II

EVs in cancer

Theme III

Free topic

All interested PhDs are invited to submit, indicating the theme, their abstract (one page, attached format) and poster (attached format) to luciana.dini@uniroma1.it

Deadline **9th of September 2022**

Selected poster will make a short oral presentation. All the posters submitted will remain available on the website and discussion with authors could be done by emails

Participation in Nanoinnovation is free upon registration.
